

SD4HD, SD4HW & SD4HC

Proper Card viewing Procedure:

Right Click DVR_Player application on your PC

From the popup window choose: "Run as Administrator"

Password for application is "admin"

Close the window telling you "No HDD Found"

The application will open and you see the Player screen GUI

Then and only then insert the SD memory card

The Program will recognize files and populate left side of Player window

If it does not then select Open HDD File from top icon and browse for file
