

CMS User Manual for WI-FI Download

1.Main page

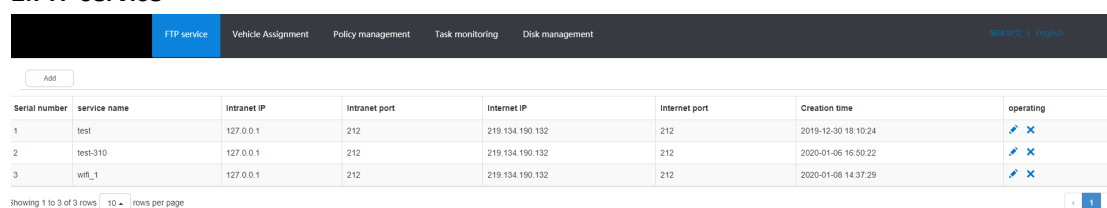

Type “http://219.134.190.132:8088/wifi-web/templates/” in the web browser;

The screenshot shows the main interface of the CMS. At the top, there is a navigation bar with tabs: FTP service (selected), Vehicle Assignment, Policy management, Task monitoring, and Disk management. Below the navigation bar, there is a table with 8 columns: Serial number, service name, Intranet IP, Intranet port, Internet IP, Internet port, Creation time, and operating. The table contains 3 rows of data. At the bottom left, it says 'Showing 1 to 3 of 3 rows' and '10 rows per page'. At the bottom right, there is a pagination control showing '1'.

Serial number	service name	Intranet IP	Intranet port	Internet IP	Internet port	Creation time	operating
1	test	127.0.0.1	212	219.134.190.132	212	2019-12-30 18:10:24	edit delete
2	test-310	127.0.0.1	212	219.134.190.132	212	2020-01-06 16:50:22	edit delete
3	wifi_1	127.0.0.1	212	219.134.190.132	212	2020-01-08 14:37:29	edit delete

2.FTP service

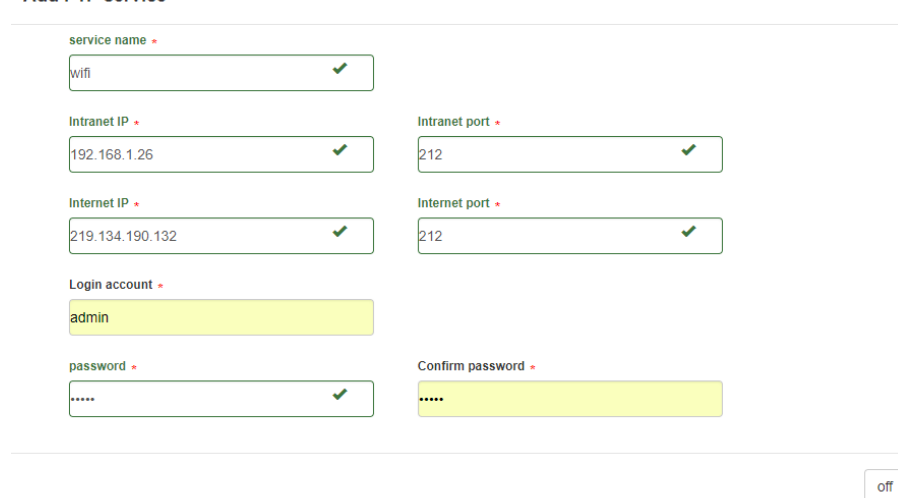

The screenshot shows the FTP service configuration page. It has the same navigation bar as the main page. Below the navigation bar, there is a table with 8 columns: Serial number, service name, Intranet IP, Intranet port, Internet IP, Internet port, Creation time, and operating. The table contains 3 rows of data. At the bottom left, it says 'Showing 1 to 3 of 3 rows' and '10 rows per page'. At the bottom right, there is a pagination control showing '1'.

Serial number	service name	Intranet IP	Intranet port	Internet IP	Internet port	Creation time	operating
1	test	127.0.0.1	212	219.134.190.132	212	2019-12-30 18:10:24	edit delete
2	test-310	127.0.0.1	212	219.134.190.132	212	2020-01-06 16:50:22	edit delete
3	wifi_1	127.0.0.1	212	219.134.190.132	212	2020-01-08 14:37:29	edit delete

Add a new FTP server for downloading the recording, input the server name, LAN IP and port, WAN IP and port, and the username and password. Then click the submit will save the configuration.

Add FTP service

The screenshot shows the 'Add FTP service' form. It has a title bar with a close button. The form contains several input fields with labels and validation icons (green checkmarks). The fields are: service name (value: wifi), Intranet IP (value: 192.168.1.26), Intranet port (value: 212), Internet IP (value: 219.134.190.132), Internet port (value: 212), Login account (value: admin), password (value: *****), and Confirm password (value: *****). At the bottom right, there is a button labeled 'off'.
